A FEW REMINDERS FOR BASIC CLOSINGS...

-LADDERS, RAILS, SAFETY ROPES, ETC. must be removed prior to our arrival. Additional charges (\$89 service charge) will be applied to your bill if our team needs to remove equipment.

-POOLS MUST BE DRAINED BELOW RETURN(S) (aka "eyeballs") prior to our removal. If not, our closing schedule may not allow us to take the extra time to drain it for you and it may be necessary for you to reschedule your closing for a later date. There will be an additional \$89 charge if your pool is not drained when we arrive, if time permits.

-ELECTRIC COVER CUSTOMERS: You will be responsible for proper draining of your pool (below the skimmers, "eyeballs") prior to our arrival. LEAVE COVER OPEN AFTER DRAINING. You will then be responsible for properly filling the pool and closing your cover. DON'T FORGET YOUR COVER PUMP.

- _____ **STANDARD CLOSING:** Same as Basic Closing plus removal of all equipment by the Novotny service team. *Specify cover and if there is a hot tub on closing contract.* ADD \$25 PER ADDITIONAL WATER FEATURE

Add Winter Chemicals? Yes No *IF YES: I Provide NSI to Supply Antifreeze only

Preferred Week of Closing: _____ *Please note that closings are scheduled on a first come first serve basis so we will do our best to honor your selected week. We CANNOT guarantee a specific day for the closing as we schedule by the week. We will call you the Saturday prior to the closing to inform you of what day for you to be ready for your closing.

Things to know prior to closing...

- Shrinkwrapping will only be performed if there is proper clearance around the pool/spa.
- If the shrinkwrap option is not selected for spa closings, the warranty will not be valid if the cover were to blow off, allowing water to access the inside of the tub.
- If the shrinkwrap option is not selected for an aboveground pool with proper clearance, NSI is not responsible if the cover blows off.
- All pool closing packages REQUIRE that the pool is drained down below the returns aka "eyeballs". Pools that are not drained below the returns will require additional draining and will be charged. (See below option)
- If you have an electric cover, be sure to fill the pool back up to normal level after the closing. Damage can be done to the cover if you try closing it with the water level being too low.
